

SacredEarth Botanicals: Oil

SacredEarth BOTANICALS

Handcrafted with only the finest USDA Certified Organic oils, our massage oil blend is light, glides easily over the surface yet provides enough drag to be excellent for deep tissue work. Very concentrated, a small amount of this oil will provide several minutes of workability and your clients will leave the table feeling like their skin has just been moisturized, not greasy.

What's In It: *[Helianthus Annuus (Sunflower) Seed Oil, Carthamus Tinctorius (Safflower) Seed Oil, Olea Europaea (Olive) Fruit Oil, and or Canola Oil], *Simmondsia Chinensis (Jojoba) Seed Oil, Non-GMO Vitamin E

*Denotes Organic

Why Organic?

The word organic refers to the growth, processing, and packaging standards of an agriculture product. Organic products have been grown under the supervision of the USDA via a regional certifying agency. Current regulations forbid genetically altered or engineered products in the growth or make-up of the plant. The processing and packaging must meet a standard of cleanliness similar to that of kosher certification. No irradiation or fumigation is allowed in this process. The purchase of organic products helps fuel an economy that ultimately benefits your body, the farmer, and the earth.

Sunflower Oil

Rich in essential fatty acids and vitamin E to aid skin hydration. The smooth, silky texture of Sunflower oil gives the SEB massage blend its great glide.

Safflower Oil

This oil is extremely high in linoleic acid, a key component to moisturizing dry skin and keeping skin hydrated. Your clients will appreciate its light feel.

Olive Oil

Our olive oil has been filtered to remove the tannins leaving an amazing emollient that will prevent the loss of moisture from the skin and will not clog pores.

Jojoba Oil

Very close to the body's own natural skin secretion sebum, jojoba oil is really a liquid wax that absorbs easily, yet provides just the right amount of drag so you can target a specific spot on your client without losing your grip.
