Certified Organic Castor Oil

Used for thousands of years for skin care because it is naturally concentrated with vitamin E and essential fatty acids, the oil is extremely nutritious for the skin. Not recommended for use on pregnant women.

Certified Organic Coconut Oil

This oil is extremely high in linoleic acid, a key component to moisturizing dry skin and keeping skin hydrated. Your clients will appreciate its light feel.

Sunflower Oil

Rich in essential fatty acids and vitamin E to aid skin hydration. The smooth, silky texture of Sunflower oil gives the SEB massage blend its great glide.

Certified Organic Carnauba Wax

Plant-based (vegan), hypoallergenic and extremely emollient, Carnauba wax provides a luxurious, silky feel.

Why Organic?

The word organic refers to the growth, processing, and packaging standards of an agriculture product. Organic products have been grown under the supervision of the USDA via a regional certifying agency. Current regulations forbid genetically altered or engineered products in the growth or make-up of the plant. The processing and packaging must meet a standard of cleanliness similar to that of kosher certification. No irradiation or fumigation is allowed in this process. The purchase of organic products helps fuel an economy that ultimately benefits your body, the farmer, and the earth.
