- Ethyl Hexyl Glycerin - vegetable based preservative

Terminology 101:

- Vegan** - vegan is a term to describe a lifestyle which discourages the use of products that are derived from or directly contain animal products.
- Emollient** - lubricating agents that prevents water loss and softens skin
- Humectant** - a water-binding agent that helps the skin retain moisture
- Antioxidant** - counteracts the damaging effects of free radicals on the skin
- Emulsifier** - helps combine normally immiscible (unmixable) liquids like oil and water
