

Organic Fractionated Coconut Oil

SacredEarth
BOTANICALS

Our USDA certified organic Fractionated Coconut Oil (FCO) is derived from organically grown and harvested coconuts. Unlike standard FCO, it meets USDA National Organic Program requirements by using steam distillation and hydrolysis to separate the fatty acid chains rather than using chemical solvents. Our FCO is highly stable and will remain usable for several years. It is odorless, light, absorbs easily, and will not stain your sheets. FCO's antioxidant properties make it an effective moisturizer for your skin. It is completely soluble with other oils, making it an ideal carrier for your favorite essential oil blends. Our FCO will remain liquid at room temperature.

Why our Organic Fractionated Coconut Oil:

- Gluten Free
- Fragrance Free
- Contains No Preservatives
- Extremely Long Shelf Life
- Will Not Clog Pores
- Excellent as a Carrier Oil for Essential Oils

Why Organic: The word organic refers to the growth, processing, and packaging standards of an agriculture product. Organic products have been grown under the supervision of the USDA via a regional certifying agency. Current regulations forbid genetically altered or engineered products in the growth or make-up of

the plant. The processing and packaging must meet a standard of cleanliness similar to that of kosher certification. No irradiation or fumigation is allowed in this process. The purchase of organic products helps fuel an economy that ultimately benefits your body, the farmer, and the earth.
